

Services

➤ Medical Equipment on Rent

Renting medical equipment has never been this convenient. During difficult phase of life, you or your loved one might need to rely on various medical equipment to get back to normal life. Anand Ambulance Service offers a wide range of medical equipment for rent or purchase making healthcare more accessible for you.

Medical laboratory equipment automates or helps analyze blood, urine, genes, and dissolved gases in the blood. These tables are often also referred as surgery tables, surgical beds, or operating tables and are intended for a wide range of procedures. The most common and broadly accepted usage of the term refers to traditional hospital operating rooms.

➤ Air Ambulance Service

We shift the patients by chartered planes and commercial planes as well. Portable life saving emergency equipments and emergency medications are accompanied with the patient on flight. Doctor and paramedical staff are accompanied with the patient for providing symptomatic treatment.

Critically ill patients and the patients who are on ventilator may be shifted by chartered planes. Our doctors and experienced para medical staff accompanied with the patient to provide complete medical care on board.

Cardiac monitor, Oxygen, infusion pumps, all emergency medications, Prime Ambulance's expert accompanying doctor and experienced paramedical staff provides an ICU environment on the board. Our medical team is expert enough to shift any kind of serious patient by air. However critically ill patients and the patients who are on ventilator are not allowed on commercial flights.

Services

➤ Basic Patient Transport

The Patient Transport Service (PTS) is a provided by Anand Ambulance Services for patients who don't require emergency transport. These patients require transport to or from a Anand Ambulance Services Health facility such as a hospital, but due to clinical requirements are unable to use private or public transport.

A new centralised booking and dispatch service has been established for all Anand Ambulance Service Health system non-emergency patient transport service providers to better coordinate all patient transport fleets and provide an improved service for patients.

This approach will improve patient flow through emergency departments and hospitals, and increase the availability of emergency ambulances for life saving and critical incidents. It will see faster and improved coordination for patients requiring non-emergency transport.

➤ Basic Patient Transport

Air Condition Anand Ambulance Service has been in business for four decades, serving the Kanpur area. In that time, we've seen it all and have helped countless people live comfortably in this hot climate. We've built a reputation for trustworthiness by ensuring customer satisfaction. We stand by our repair work so much.

There are a number of cators that can affect the air quality in your home, and that air quality can have a real impact on your happiness and well-being. From pet dander to carbon monoxide, let us worry about the air quality so you can breathe easy.

Services
